

Locations of Osteopathic Postdoctoral Training Institutions (OPTIs)

Listed in this document are the hospitals that are affiliated with the eighteen AOA-accredited Osteopathic Postdoctoral Training Institutions (OPTIs). Hospitals in an OPTI provide postdoctoral training or student clerkships (3rd and 4th year medical school). Each hospital routinely hosts postdoctoral trainees (or students) from other affiliated training sites within the OPTI.

OPTIs play a fundamental role in osteopathic medical education and training. OPTIs administratively support osteopathic postdoctoral training programs approved by the American Osteopathic Association (AOA). Hospitals must be affiliated with an OPTI in order to provide AOA-approved postdoctoral training.

Healthcare is changing rapidly. Hospital mergers, the establishment of new training programs and other hospital events can have a significant impact on postdoctoral training. Consequently, the AOA plans to update this listing at least twice a year. For the most current information, contact the OPTI directly. This is a supplement document to **Opportunities, Directory of Osteopathic Postdoctoral Education Programs**.

Appalachian Osteopathic Postgraduate Training Institute Consortium, Inc. (A-OPTIC, Inc.), Pikeville, KY

William T. Betz, DO, MBA, FACOFP
Chief Academic Officer
John E. Rehmeier, MA
